DETAILED ACTION

Information Disclosure Statement

The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Claim Rejections - 35 USC § 102

Claims 1-4, 11-15 and 17-20 rejected under 35 U.S.C. 102(b) as being anticipated by Lee (US 5,874,006). See endplates 24 and 25. The structure disclosed by Lee is seen to be capable of performing the claimed functions, and as such, is seen to meet the claims. With respect to claims 11 and 15, rotation of the disclosed rotatable body will inherently cause vibration.

Allowable Subject Matter

Claims 5-10, 16 and 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Examiner's Comment

Claims 17-21 have been interpreted as being dependent on those claims which they reference. Any inquiry concerning this communication should be directed to Robert J Popovics at telephone number (571) 272-1164.
